

**DRUGS ARE EASY AND
FUN FOR ME...
TO TALK ABOUT!**

AMY KOPP, MD

**SOON TO BE:
AMY MILLER, MD**

DRUGS: NEW & NOTEWORTHY

VUITY

- Pilocarpine 1.25%
- This is not your granny's pilo!
- Physiologic pH at tear layer
- Ideal pupillary restriction while maintaining pupillary movement
- No Prior Authorizations Ever - \$79 per 2.5ml bottle

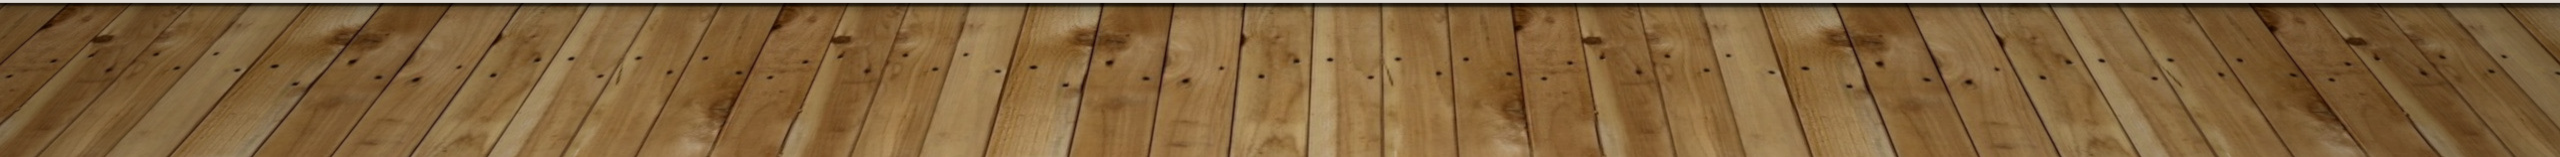

ROCKLATAN: NETARSUDIL & LATANOPROST

- Best outflow enhancing agent on the market to date
- Once daily dosing to maximize compliance
- Good overall insurance coverage

TYRVAYA

- First FDA approved nasal spray indicated to treat dry eye disease
- BID dosing
- Stimulates cholinergic activity to increase tear production
- Side effects: sneezing/coughing, nasal irritation
- Cost yet to be seen but ads say \$10/month

TRIED & TRUE

-
- Generics make a great starting place
 - Latanoprost always a good place to start
 - Timolol has been around since 1978
 - Combigan to go generic “any day”
 - Brinzolamide beware!

- Brand names can be power packed for many!

- Lumigan
- Betimol
- Cosopt PF
- Simbrinza

THANK YOU!
